

# Paper plate wreath

## You will need;

Paper plate, green tissue paper, red tissue paper, red ribbon and glue.

1. Cut out the middle of your plate so you are left with a ring.

2. Tear your tissue paper into pieces and scrunch it up.

3. Cover one side of your plate in glue and stick the green tissue paper on as you go.

4. Once your wreath is covered use the red paper to make clusters of berries. Once it is dry, tie the ribbon in a bow and attach to your wreath.
